

Juan Eduardo Brizuela

Software Engineer • Full Stack Developer

Puebla, México | juanbrizuelago@gmail.com | juanbrizuela.com.mx

SUMMARY

Full Stack Engineer with 4+ years architecting scalable web and mobile applications using React, TypeScript, Next.js, Python, and cloud infrastructure (AWS, GCP). Delivered production SaaS platforms serving 1,000+ users, e-commerce systems with payment integrations (Stripe, Shopify), and CRM/ERP dashboards. Expert in REST/GraphQL API design, PostgreSQL databases, and React Native mobile development. Proven ability to ship clean, maintainable code that drives measurable business value.

PROFESSIONAL EXPERIENCE

Full Stack Engineer — Happy Software

May 2024 - Present

- Built production SaaS platforms end-to-end using React, Next.js, TypeScript, and Tailwind CSS
- Developed REST and GraphQL APIs with Nest.js, FastAPI, and PostgreSQL with Prisma ORM
- Implemented authentication systems (Clerk), payment integrations (Stripe, Shopify), and RBAC authorization
- Deployed scalable cloud infrastructure on AWS, AWS Lambda and integrated AI-powered features including chatbots, workflow automation, and content generation using OpenAI and Anthropic APIs

Freelance Full Stack & Mobile Developer

May 2022 - Present

- Delivered 15+ web and mobile projects for startups and businesses, helping launch 3 startups
- Designed responsive websites and web applications with React, Next.js, Framer, Webflow, and WordPress
- Created cross-platform mobile apps with React Native and Flutter for education and business sectors
